

BLAINE PLANS SPECIAL NOTE ON TAX BILL

Governor Expected to Address Solons at Joint Session to Explain Proposed Measure

PROPOSED TO SHIFT BURDEN RATHER THAN RAISE RATES

Nearly Seven Million Expected to be Raised from Incomes

MADISON, Wis.—By The Associated Press.—Governor Blaine will go before the legislature in person Wednesday morning to explain his taxation plans to the two houses, and to make a plea for enactment of the measure which he believes solves the state's tax difficulties to the satisfaction of all interests.

By FRED L. HOLMES

MADISON, Wis.—Governor Blaine will send a special message to the legislature this week on matters of taxation. This fact became known on Monday, when several members of the assembly said that Governor Blaine had declared that he would deliver a message in the legislature before the Easter holiday. At the executive office an admission of denial could be obtained.

The expectations are that Governor Blaine will deliver his message in joint session not later than Thursday. He will not leave the message to be delivered by the clerks, but it is said that the executive will come in person to explain the tax bill, a copy of which will be appended to the message.

Little Change in Rates

Legislative members claim that Governor Blaine's tax measure provides for rates on an average about 60 per cent of the rates in the Dahl bill; that the rates on corporations are practically the same as now; that the rates on small incomes remain low. The members have been told that under normal times this bill will produce \$12,500,000 in taxes. The state will retain \$6,700,000 and the balance will be distributed to the communities. The amount which the state will receive will be a definite amount and not a percentage of the tax, as is now the policy. All in excess of this definite amount will be distributed to the localities.

Will Discuss Appropriations

While Governor Blaine is on the matter it is claimed by two members that he intends to discuss a number of matters relating to appropriations and to the amounts of reductions to make. He will devote special attention to the military and will deal with all of the financial questions connected with the military appropriations.

The Blaine bill does not repeal the personal "offset." Objections to this failure to repeal the offset are met by a slight increase in income tax rates on incomes over \$4,000 and by some method of distribution which Governor Blaine has not as yet disclosed to members of the legislature.

It repeats the secrecy clause to the state income tax law.

Repeals Mill Tax

It repeals the present mill taxes for the support of the university, normals and common schools of the state. It repeals all of the special state taxes, \$200,000 for the graded schools; \$175,000 for the free high schools and \$160,000 for certificates of indebtedness. All of these will be financed out of income taxes.

The bill will shift a burden of \$6,700,000 from real property to income.

WEATHER REPORT

For La Crosse and vicinity—Mostly cloudy tonight and Tuesday. Warmer tonight.

For Wisconsin—Increasing clouds tonight and Tuesday; possibly light snow in extreme north portion tonight and Tuesday. Strong warmer tonight and in extreme north portion Tuesday. Strong southwest wind.

For Minnesota—Mostly cloudy tonight and Tuesday. Warmer in east and extreme south portion tonight. Colder Tuesday afternoon. Strong southwest to west wind.

For Iowa—Generally fair tonight and Tuesday. Warmer tonight. Colder in northern portion Tuesday.

BILL FOR SECRECY CLAUSE REPEAL UP FOR FINAL ACTION

Measure Expected to Pass Last
Test and Go to Blaine for
Signature this Week

APPROVAL MEANS REDEMPTION OF PARTY'S PLATFORM PLEDGE

Measure Was Urged by Govern-
or in Pre-election Speeches

MADISON, Wis.—By The Associated Press.—Despite all attempts to shorten the present session of the legislature and reports from committees that work is progressing more rapidly than in the past, the facts indicate at present that an early adjournment is improbable.

A report of legislative business Monday shows that up to the present time eleven bills have become acts by passage in both houses of the legislature, compared to 48 measures enacted at the same time two years ago.

In the senate there are at present 222 bills introduced, compared with 246 at this time in 1921. There were 252 additional bills brought into the upper house after this time two years ago, making a total of 558.

In the assembly up to this time 600 bills have been introduced, compared with 442 at this time two years ago, with 558 additional introduced between this time and adjournment, making a total of 601 bills. Out of

PROGRESS MADE BY SOLONS INDICATES IMPROBABILITY OF AN EARLY ADJOURNMENT

MADISON, Wis.—By The Associated Press.—Despite all attempts to shorten the present session of the legislature and reports from committees that work is progressing more rapidly than in the past, the facts indicate at present that an early adjournment is improbable.

A report of legislative business Monday shows that up to the present time eleven bills have become acts by passage in both houses of the legislature, compared to 48 measures enacted at the same time two years ago.

In the senate there are at present 222 bills introduced, compared with 246 at this time in 1921. There were 252 additional bills brought into the upper house after this time two years ago, making a total of 558.

In the assembly up to this time 600 bills have been introduced, compared with 442 at this time two years ago, with 558 additional introduced between this time and adjournment, making a total of 601 bills. Out of

With an overwhelming majority already secured in its favor by lower house members who expressed the repeal bill, its passage is taken for granted when it is reached on the calendar this week, Governor Blaine will then have six days in which to sign the proposal.

His signature will remove the bar that in the past has kept tax returns on incomes away from public scrutiny. It will mean the redemption of the first campaign pledge made in the Progressive Republican platform in the fall campaign. Those who have opposed the measure on the ground that it would open the way for unscrupulous use of information by newspapers and individuals, will have lost their fight, that was successful in stalling off action since the 1919 session.

Governor Blaine promised substantial results from the removal of the secrecy clause, when he urged its repeal in campaign speeches preceding the September primary and the November general election. Its effect will be watched carefully by the tax commission and by those who have opposed the repeal.

BILL LIMITS EIGHT HOUR DAY TO STATE PRINTERS—KILLIAN

MADISON, Wis.—Assemblyman E. M. Killian, Watertown, announces that his bill referring to an eight hour day for printer refers only to printers engaged in state work. He says that the passage of this measure by the assembly has resulted in a storm of protest from publishing houses, who have the opinion that the proposal covers all printing. His restriction to public printing will affect only a few shops, the assemblyman said.

REDS LIBERALLY SUPPLIED WITH COAST LEAGUERS

ORLANDO, Fla.—On the Cincinnati club are a number of players who first gained fame in the Pacific Coast league. Among them are Sammy Rhine, Louie Fongson, Babe Pinelli and Johnny Couch.

When the quarter came on from the coast to join the Reds, Willie Kamm was a member of the party. He dropped off to join the White Sox at Secuin, Texas.

Kamm is the third sacker for whom the Chicago club paid something like \$100,000, which rates as about the highest mark ever paid for a minor league player.

All the Cincinnati players have kind words for Kamm. They say he is a great ball player, one of the most remarkable fielders that has ever broken into the big show. While admitting that he may not hit as well as some of the fans may expect, when all the money paid for him is considered, they feel that he will rank close to the 500 mark.

A grand ball player and an equally fine boy is the way all the Cincinnati players regard him. They say he is extremely modest, a retiring player of the George Sisler style.

Avoiding the Reds who hail from the coast, Kamm for purely selfish reasons is glad that the deal New York was trying to make for Eddie Collins fell through.

Kamm is a smart chap. He is familiar with the ability of Collins and the interest he always takes in the recruits. Collins remaining with Chicago, Kamm feels, will increase his chances at least 50 per cent, as he realizes the advice of Collins will be invaluable.

2,000 Grasshopper Eggs

Last year as many as 2,000 grasshopper eggs were found in a square foot of soil in southern Alberta.

"INDIANS? UGH!"

This is Ah-wen-ha. "Beautiful Flower," who in English is called Esther. Pierre, Shaw's grand daughter of a chief of the Ojibwa Indians in New York. "I want a white husband," says Ah-wen-ha. "No Indian brave for me!"

Characteristic color of face are lavender, brilliant spots green and white with emerald green spots.

OUTLOOK IS FOR LITTLE DANGER IN STATE FROM FLOOD

Inspector of National Guards
Reports After Survey of
River Conditions

MADISON, Wis.—By The Associated Press.—The danger of serious floods in Wisconsin this spring with the opening of streams is slight in the sections where the most serious trouble has been caused in the past, Col. Byron Beveridge, inspector general of the Wisconsin National Guard, reports. Colonel Beveridge has been over the situation in several parts of the state.

Southern Wisconsin may face some flood waters from the Wisconsin river, he finds, but in the central portion of the state, down the Fox river and Wolf river valleys, there is less likelihood of overflows than for some years. A comparatively light snow fall over the northern sections has lessened the danger in that region, according to Colonel Beveridge.

The Wisconsin National Guard is prepared to handle any situation that may arise as a result of the possible spring floods, requiring relief to persons residing in the lowlands. Its equipment, the adjutant general's department announces, is available for use in emergency cases.

Up in the Wolf river section, where floods have occurred in the past, it appears as though little difficulty would be encountered from high water this year, Colonel Beveridge reports as a result of his investigation. Snows are less heavy in this central part of the state than in past years, with the situation apparently satisfactory, he finds.

A similar condition exists along the Fox river, and along Lake Winnebago. Flood conditions are not looked for through the lowlands in that section.

The Wisconsin river in the Portage section, Colonel Beveridge believes, may cause some trouble, but much less than last year, due to the smaller amount of snow around the bendwaters and along the river in the central part of the state. This river came near to overflowing the levee around Portage last year.

There is also reported to be some likelihood of high waters around Milwaukee. Nothing very serious is looked for, however, the colonel says.

Conditions throughout Wisconsin were found to be much better than a year ago, with few possibilities of any serious floods such as have occurred in past years.

ACTING IS LARGELY A QUESTION OF TRICKERY SAYS FRANK CRAVEN

Frank Craven, author and leading player of "The First Year," the comedy of married life which comes to the La Crosse theater, on March 31st, for two performances, matinee and evening, has no illusions about the stage or false ideas as to what it is in the art of acting that makes it possible for a player to give that touch of spontaneity to his work so as to make each performance appear like a premiere.

As Tommy Tucker, in his own comedy, Mr. Craven has a role which has undoubtedly gained him his greatest fame as a light comedian, not forgetting even his delightful work in that previous comedy from his pen, "Too Many Cooks," his hilarious portrayal of the aviator in "Going Up," his Jimmy Gilly in "Bought and Paid For," or his brilliant work in Belasco's "Seven Chances."

In "The First Year," Craven has been playing the role of the shy and much abused lover night after night for more than 1,000 times, and still he is able to convey to each succeeding audience such impression of freshness as to make his playing seem a positive delight.

"Acting is largely a question of trickery," says Craven. "It always makes me smile when I hear actors—and some of the most prominent ones too—speak themselves vigorously over the heart and exclaim 'You must put your whole heart into it, my boy, or something to that effect.'"

"For instance, if a man were walking down the street and some one stopped him to say 'Did you hear that bill died yesterday?' there would probably be surprised sorrow in his voice when answered, 'Say, that certainly is tough. Poor old Bill! But after the sixth or seventh person stopped him with the news, he'd find it a little harder to put the shocked sorrow in his voice and he would have to get a little.'"

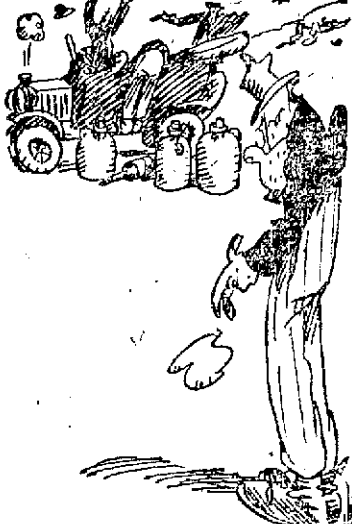

"It's the same on the stage. After you've been in a role for any length of time you must depend on a certain amount of trickery to get the effect on your audience."

GRAND JURY PROBES JURY FIXING CHARGE IN TRIAL OF SMALL

WAUKESHA, Ill.—Witnesses were gathered here Monday ready to go before the re-called Lake county grand jury to testify regarding alleged attempts to bribe the jury and venue-men in the trial of Governor Len Small, acquitted of mishandling state funds after a six weeks' trial last year. A. V. Smith, state's attorney of Lake county, directed the inquiry that led to the recall of the grand jurors.

The average city school is open 152 days in the year.

PROPOSES BAN ON FOREIGN LANGUAGES IN LOWER SCHOOLS

MADISON, Wis.—Considerable objection is promised a bill proposed by Assemblyman Matt Koenigs, Fond du Lac, which would forbid the teaching of all foreign languages in public graded and high schools of the state.

Koenigs contends that the only aid to a student from a knowledge of foreign languages comes when he seeks higher education and he asserts that abandonment of foreign languages in the school would save the state a quarter of a million dollars a year.

Certain-teed Roofing

The smoke screens of industry play havoc with roofs that are not built to withstand the ravages of fumes, gases and sparks. Here, enduring roof quality is essential—not only for the protection of machinery and materials but for uninterrupted operation of the plant. Certain-teed Smooth Surface Asphalt Roofing is written into the specifications of industrial engineers with complete confidence on account of its dependable quality, reasonable first cost and long life.

It is this through-and-through quality which has made Certain-teed the preferred roof for every type of structure, from the great industrial plant to the modest farm building, where resistance to the extremes of weather is a prime essential.

FARRAND IS NAMED SCHOOL PRESIDENT BY THE DIRECTORS

Twenty-five Years of Faithful Service Rewarded at St. John's Military Academy

A quarter century of faithful service to St. John's Military Academy by Lieut. Col. Roy Farrand, commandant of cadets, was rewarded Saturday when the board of directors of the institution met at Delafield and elected him president of the school to succeed Dr. Sydney T. Smythe, founder, who died recently.

Lieut. Col. Farrand has been with the school since 1897. He was inducted by the alumni association, Gen. Charles King, former military director of the school, gave out the information Saturday night that Farrand had been named.

Lieut. Col. Farrand entered St. John's academy as a cadet in 1892 and completed his work there two years later. In 1897 he was graduated from the University of Wisconsin and returned to St. John's as a commandant of cadets. In 1917 Farrand received the commission of major in the first army officer training camp at Fort Sheridan. After the war he returned to the academy. His commission has since been increased to lieutenant colonel. Farrand is a brother of Dr. C. H. Farrand of La Crosse.

Among the alumni present at the meeting which honored Farrand were: John McCoy, Milwaukee, president of the association; Rowland Stebbins and Charles Leiden of Milwaukee; William Johnson, A. O. Hartmann, Donald Wood and George Landan of Chicago; T. C. Agnew, Owen Jones and H. J. Welch of Waukegan; Konrad Testa and Andrew Vollrath of Sheboygan; W. J. Cole, Ford du Lac, and H. J. Campbell, Clorget, Minn.

ST. OLAF CHOIR TO BE HEARD TONIGHT AT LOCAL THEATER

The beautifully blended young voices which composed the great St. Olaf choir, singing at the La Crosse theater tonight and the deeply religious feeling which moves the members and the director together makes the program of church music one to be anticipated with eagerness. Much has been said of the choir's remarkable technical skill of the way the choir sings from memory and without accompaniment, without the use of tuning fork or other instrument, by a method undiscovered to the audience the choir gets the key. It is not for its technical aspects that the work of the choir has become famous, rather because it brings to each audience a new and wonderful experience of beauty. The full evening program will be given as follows:

Be Not Afraid, John Sebastian Bach, Motet for double chorus.
O Danket, Woe, Choral by J. Shop, 1841.
This is the Night, That Gladness, 1815.
How Fair the Church, J. C. Schuler, 1815.
From Schumann's Gesangbuch, 1830.
PART II:
The Morning Star, Choral by Philip Nicolai, 1807.
Adoration of the Christ Child, George Schumann, in Latin.
In Latin German from the Latin Century Motet for Advent, J. C. Schuler, 1815.
PART III:
None Dimittis, Choral by G. Schumann, 1815.
Magnificat, Choral by G. Schumann, 1815.
(a) Meistersinger motet.
(b) Anthem.
(c) Allegro.

Bow and Arrow Being Used for Game
The bow and arrow as a weapon for true hunters is coming into favor again. On the Pacific coast there are shooting grizzly bear, deer, mountain lions, wildcats, coyotes and smaller game with the bow and arrow. In St. Paul, Minn., America's foremost field archer, declares that this primitive implement of man is the most sportsmanlike weapon ever invented for it gives the game a chance to hit its instinctive cunning against the natural ingenuity of man.

Dandruff Soon Ruins The Hair
Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It does no good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you dandruff it entirely. To do this, get about four ounces of ordinary liquid arsenic, apply it at night when retiring, let it sit enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arsenic at any drug store. Your doctor, if you will need, no matter how much dandruff you have. This simple remedy never fails.

Public Debate

WHO'S WHO AND WHAT'S WHAT
Editor, Tribune:

Dear Sir: When a man accepts official position he is bound to support and maintain the laws under which he acts. He is debarred from acting as Marcus Aurelius said, "According to nature," and if honest and honorable will not try to avoid either letter or spirit of the law, by taking a detour over the rough roads of subterfuge or trickery.

Here is the law: "No person shall be eligible to any city office who directly or indirectly has any pecuniary interest in any contract for furnishing heat, light, water, power, or other public service, to or for such city, or who is a stockholder in any corporation which has any such contract. Any such office shall become vacant upon the acquiring of any such interest by the person holding such office."

Here is the subterfuge: "Statement of ownership, management, etc., required by the act of congress August 21, 1912, of the La Crosse Weekly Review, published at La Crosse, Wis., for October, 1922." Managing editor, A. A. Bentley, La Crosse, Wis.

Publisher, A. A. Bentley, La Crosse, Wis.
Owner, M. A. Bentley, La Crosse, Wis.

Sworn to and subscribed before me this 1st day of October, 1922, Wm. J. Fries, Notary Public.
It follows as a necessary corollary, that if Mayor Bentley had or has any "pecuniary interest" in the contract given by the city to the Weekly Review for the publication of the council proceedings, he is not the mayor of La Crosse, nor has he been since such contract was entered into. Therefore, all acts performed by him as mayor during the time when the office was vacant, are null and void, and should any overburdened or disgruntled taxpayer seek relief through injunction proceedings, the situation would become serious for the city.

S. H. RUSSELL.

NEIN OFFERS BILL TO OPEN HOSPITALS TO ALL PHYSICIANS

La Crosse Assemblyman Would Change Rules Prescribed for Institutions

MADISON, Wis.—Hospitals which have stringent rules supervising surgeons and physicians who practice in the hospitals and whose regulations may have some licensed physicians may have their rights of exemption revoked under 2 bills which have been introduced in the legislature by Assemblyman Henry Nein of La Crosse.

One bill provided that no hospital association organized under the laws of this state as a charitable or benevolent corporation shall pass or enforce any unreasonable rules, by-laws or resolutions or any rules which will prevent any regularly duly licensed physician or surgeon authorized to practice medicine or surgery in this state to enjoy the benefits of said hospital and treat his patients therein, provided such hospital association shall be able to accommodate such patients.

Another bill changes the rule of exemption for property from taxation and provides that only hospital associations shall be exempt. "If the rules and regulations prescribed by the board of trustees or governing board of said hospital shall be reasonable and permit all duly licensed physicians and surgeons authorized to practice medicine and surgery within this state to treat their patients and practice therein."

Ant Hills Forty Feet High
The clay hills of white ants, the pests of Central Africa, are sometimes 40 feet high. Their jaws are so strong and sharp that they cut through leather and wood and eat away floors and supports of houses.

AS QUICK AS AN EGG

Quick Quaker Oats cook as quickly as an egg. They are ready in 3 to 5 minutes. No other oat flakes cook anywhere near so quickly.

Just like regular Quaker in quality and flavor. Flaked from the finest grains only. We get but ten pounds from a bushel.

But in Quick Quaker the oats are cut before flaking. They are rolled very thin and are partly cooked. So the flakes are smaller and thinner—that is all. And those small, thin flakes cook quickly.

Ask for Quick Quaker if you want this style. Your grocer has both.

Now, a Quick Quaker Oats
Cooks in 3 to 5 minutes

GOSPEL MEETINGS TO BE HELD AT BAPTIST CHURCH

There will be Gospel meetings every evening of this week at the First Baptist church on Sixth street. The services will commence each night with a rousing song service at 7:30. Each one of the organized classes of the Sunday school has agreed to attend one of the services in a body. The pastor of the church, Rev. W. S. Stewart will do the preaching.

The subject of the sermons will be, "The Cross of Christ in the World of Today." Monday: "The Cross in Daily Life"; Tuesday: "The Cross Left Out"; Wednesday: "The Cross in Hours of Stress"; Thursday: "The Cross and Human Sin"; Friday: "The

Gross and Divine Love." A cordial invitation is extended to the general public to attend all of these services.

Rare Old Bottles
One of the finest collections of bottles in the world is owned by George K. McKearnin, of Hoosick Falls, New York. Many of the bottles are the work of old-time factories, one of them coming from the first concern of its kind in the country, that of Baron Steigel, founded in Mannheim, Pa. The rarest specimen is a dark blue whisky flask made in 1850 and having the bust of Jenny Lind blown into it.

NOTICE OF ELECTION

Office of the City Clerk, La Crosse, Wis., March 22, 1923.
To the Electors of the City of La Crosse, County of La Crosse, State of Wisconsin:

Notice is hereby given that a Municipal Election is to be held in the several wards in the City of La Crosse on the third day of April, A. D. 1923, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to or filed in this office, are given under the title of the office in the sample below.

INFORMATION TO VOTERS

The following instructions are given for the information and guidance of voters:

(a) A voter upon entering the polling place and giving his name and residence, will receive a ballot from the ballot clerk which must have endorsed thereon the names or initials of both ballot clerks, and no other can be used. Upon receiving his ballot, the voter must retire alone to a booth or compartment and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for.

(b) If a voter does not wish to vote for the candidates nominated he shall insert the name in writing of the candidate for whom he desires to vote.

(c) The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its place, but not more than three in all shall be issued to any one voter. Five minutes time is allowed in the booth to mark ballots. Unofficial ballots or memorandums to assist the voter in marking his ballot can be taken in the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter.

(d) After it is marked it should be folded so that the inside cannot be seen, but so that the printed indorsement and signature of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place.

(e) A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers in marking same to be chosen by the voter; and if he declares that he is totally blind, he may be assisted by any person chosen by him from among legal voters of the city. The presiding officer may administer an oath in his discretion as to such person's ability.

(f) The following is a facsimile of the official ballot:

OFFICIAL BALLOT for CITY ELECTION

To vote for a person whose name is on the ballot, make a cross (X) in the square after the name of the person for whom you desire to vote.

To vote for a person whose name is not printed on the ballot, write his name in the blank space provided for that purpose.

City Clerk's Office, La Crosse, Wis., March 22, 1923.

COUNTY WORK ORGANIZED ON STATE PLANS

Seventh Congressional District Social Work Headed by Judge Hill of Baraboo

AN interested group of persons from all sections of La Crosse county, who know the needs of the county and who are familiar with the various women's clubs, welfare agencies, health centers and men's organizations, is, according to Judge J. A. Hill of Baraboo, district vice president of the seventh district of the Wisconsin State Conference of Social Work, to be asked to assist the social workers in planning its work this spring.

By means of such a group, selected by the people themselves, it is hoped that much of the overlapping and useless effort in social work can be avoided. The plan further includes the working out by these various local people of a county program which will include all the community and welfare groups in the county. Such a program would most naturally include, among other things, health work and clinics; recreational agencies; delinquency work; rural school activities and county, rural problems. Recreational institutes for the county may be planned, to which might be brought such experts as Professor E. E. Gordon or others of the extension division.

Practical court activities and the establishment of detention homes are among the big objects of the conference. Detention homes being particularly needed where juveniles can be placed while investigations are being carried on in regard to their cases. Probation work which includes supervision of parolees and obtaining the right terms of probation, and a county welfare committee which would specifically look after mothers' pensions, are two badly needed features in most communities.

According to Mrs. J. P. White, president of the conference, this work is being carried on in several Wisconsin counties with most, with the exception of La Crosse, where the problem of placing the welfare work in the hands of local people who are aided by experts in the various problems. It is highly recommended and encouraged by all persons interested in human betterment.

Plan County Groups

The Wisconsin Conference of Social Work is developing county groups throughout the state. This is an attempt to organize the various welfare agencies, rural schools and the communities in the county. Heretofore, in such counties, an enormous amount of welfare work has been done without any coordination. As a result, a great deal of duplication of work has been done.

Such a plan will enable each agency and club and organization to do that specific thing for which it is organized and in this manner all sides of the community life will be covered. The plan includes a county leader who will be selected by the people in the county. This leader in turn is aided by local representatives in each of the various communities and rural districts in the county.

County gatherings of social workers and their county organizations in the various districts are being held. At such gatherings, the representatives from the various state departments and state boards and public institutions, as well as private and voluntary agencies, will meet and discuss community welfare work. The conference at such conferences has usually been made up of people from the rural districts and the communities. Wisconsin is one of the few states in the union where county conferences are held. The plan is attracting wide attention throughout America, and this fair to become a national wide conference. It is probably the best organized effort of various professions to carry on welfare work to the rural districts and communities.

These county groups not only form the basis for the county conferences, but also of the more thoroughgoing conferences of the whole district. At such district conferences, not only do the experts from the various state departments present their particular work, but authorities in welfare work from all parts of the nation are also present. During the last two years, five district conferences were held, one at Ames, one at Oshkosh, one at Wisconsin Rapids and one at Platteville. These conferences were attended by a large number of people from all of the surrounding counties. As a result of one of these district conferences, a most successful chest clinic, held under the auspices of the Wisconsin Anti-Tuberculosis Association, was attended by approximately 1,000 persons. A recreational program for a large town was worked

LEMON MERINGUE PIE

BY BERTHA E. SHAWLEIGH (of Columbia University)
For the crust of the lemon meringue pie, mix one and one-half cups flour with one half teaspoon salt, cut in one fourth cup of lard and moisten to a stiff dough with cold water, pat and roll out on a floured board and spread with one-third of a quart of cream of butter. Fold into three folds, roll out again and again until you have a thin crust. Roll out to fit two small, or one large plate. Place the paste on outside of plate, prick with a fork and bake. Fill with lemon filling, cover with meringue and bake eight minutes.

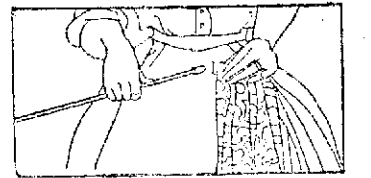

Lemon Filling
1 cup sugar.
1-2 cup flour.
1 cup boiling water.
1-4 teaspoon salt.
1 cup lemon juice.
1 egg yolk.
1 egg white.
1 tablespoon butter.
Mix sugar and flour, add boiling water and cook until thickened, having some pan over direct heat. Then cook over water for 15 minutes. Add egg yolks, lemon juice, and salt and butter. Cook two minutes, turn into a dish and cool.

Meringue
3 egg whites.
1-2 cup confectioner's sugar.
1-2 teaspoon vanilla.
Beat whites of eggs until stiff, add sugar gradually and continue beating until mixture will hold its shape. Add vanilla, place on top of pie and cook in a moderate oven eight minutes.

HOUSEHOLD SUGGESTIONS

TO FLAVOR BACON
Before you fry the breakfast bacon, soak it in cold water for three or four minutes. It will give it a much more delicate flavor.

CURTAIN RODS
To run a rod through the hem of a curtain place a tin can over the

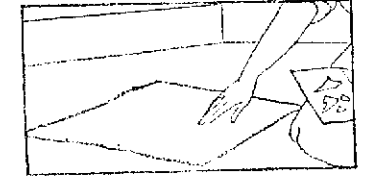

end of the rod and it will slip through readily.

BRASS CLEANER
Warm bran will clean tapestry-covered furniture. Apply it thickly on a piece of flannel and brush off with a clean brush. This will also clean breads.

CLEANING PAINT
The marks left on paint when out-hair is scratched on it can be removed by rubbing with cut lemon.

WHEN CHICKENS ARE SINGED
Brown wrapping paper is said to be best for singeing the chickens because it will leave no blackened spots.

BROKEN GLASS
If a piece of broken glass is placed on the floor where glass has been broken all the tiny particles will stick to it and thus be removed.

SALT AND CELERY
You can make a delicious flavoring for soups, or tea, or gravy by adding the root of the celery, drying and grinding it and mixing with it one third as much salt.

ONION ODOR
Remove the odor of fish or onions from frying pans by scrubbing vinegar in them, then washing in the usual fashion.

Tippling for washing children: Don't wash over night, just add a little blue devil to the water. —Adv.

American Residents in Yokohama
There are 7,820 foreign residents in Yokohama according to a census taken by the municipal authorities. Of these, 561 are Americans, who come third on the list.

out and many types of activities carried on through the winter. The seventh district is planning a conference in Sparta soon.

Don't Let That Cold Turn Into "Flu"
Rub on Good Old Musterole.

That cold may turn into "Flu," drips, or, even worse, pneumonia, unless you take care of it at once. Rub good old Musterole on the congested parts and see how quickly it brings relief.

Colds are merely congestion. Musterole, made from pure oil of mustard, camphor, menthol and other simple ingredients, is a counter-irritant which stimulates circulation and helps break up the cold.

As effective as the messy old mustard plaster, it does the work without the blister.

Just rub it on with your fingertips. You will feel a warm tingle as it enters the pores. Then a cooling sensation that brings welcome relief. 25c and 50c, in jars and tubes. Better than a mustard plaster.

HEALTHPLAYS DEVELOP CHILD SAYS TEACHER

Every child is born with a dramatic instinct, according to Miss Margaret Carey of the American Child Health association whose work is teaching teachers to teach health and who makes use of the innate desire of every little boy and girl to be an actor.

"In three rehearsals almost any group of children can stage a play of their own and make up their own lines," declares Miss Carey who tours the normal schools of the country and reaches the little sample children allotted to the teachers as pupils.

"All I have to do is to tell them their parts. I give them a synopsis of the plot and leave the rest to them. They carry through a fairly complicated play of action, in many cases make up their own costumes and their own songs. One child may represent Milk, another Lettuce, another Fresh Air. It is the old play acting instinct that makes most of us pretend to be robbers and faeries when we are small."

"By staging a health play we are appealing to four valuable things," she says, "the memory, the creative impulse, the dramatic instinct and a knowledge of health principles. After they have participated in an ardent struggle where Milk is the hero and Coffee the villain they will remember the evil effects of Coffee more vividly than through a whole year of warning instruction. I work in the normal schools because through them I can eventually reach the largest number of pupils. My object is to give teachers an illustration of how they can best inculcate health teaching among all classes of children. Naturally the health plays appeal only to the fairly little ones, from the first to the fifth grades. The older children would seem anything so infantile as tripping about on a stool."

It is strange to see several hundred teachers sitting spellbound before a little amateur play staged by little children," says Miss Carey. "It only shows that health and nutrition work with children has become an important subject and teachers are only too eager to learn the best way of instructing it. The children themselves love to act and it is possible for them to appear in their every day clothes. But generally they prefer to make the costume themselves out of crumpled paper or cheese cloth. It is a simple matter to be a hero of milk or a wicked potato if you can get a few yards of colored paper and wear it like a sandwich board."

ABOLISH DIVORCE URGES NEW YORK SUPREME JUSTICE

Proposes Immediate Action by Congress to Make Foreign Decrees Invalid Here

NEW YORK—Complete abolition of divorce is urged by Supreme Court Justice Morschauser, who presided over the Stillman case, in an article in the April number of Columbia, official organ of the Knights of Columbus, made public Monday.

Declaring that he believed the abolition of divorce should be brought about by congressional legislation, he added: "But that is a long way ahead because there are, unfortunately, so many middle-aged and elderly men—and some young ones—who for one reason or another want new wives."

"But one great practical step which should be taken immediately is the passage of legislation making decrees obtained in Paris or elsewhere in Europe invalid. It is all wrong to let rich men or women run off to Paris to get a divorce. We should not allow a condition to exist which permits wealthy Americans to escape from the operation of the American laws."

Justice Morschauser would have divorce cases tried in the open court because he believes publicity has a wholesome effect. He would permit separations and annulments.

FEWER UNEMPLOYED IN STATE REPORTED BY INDUSTRIAL BODY

MADISON, Wis.—There was a general increase in employment in February as compared with January in spite of decreases in all lines of construction, the industrial commission announced Monday.

The numbers employed in factories increased 2.4 per cent in the last month and is now 20 per cent greater than a year ago. Lumbering and mining both showed considerable gain in the number employed. Both wholesale and retail trade showed decreases.

Practically all lines of manufacturing except leather and meat packing showed improvement, both in number of employees and earnings. Another indication of improved conditions is the reports of the 11 public employment offices showing that the number of persons placed in jobs in February was 12 per cent greater than in the previous month and 70 per cent greater than a year ago.

LEGISLATURE WILL ADJOURN THURSDAY FOR EASTER RECESS

MADISON, Wis.—The legislature will go into session this week, both houses having passed a resolution providing for adjournment Thursday and Wednesday of next week on account of Easter and the municipal elections of next Tuesday. This will be the longest recess of the session. In view of this long recess, the assembly voted to meet Saturday of last week and Monday of this week. Ordinarily they would have adjourned Friday until Tuesday.

WHY WE "SEE OUR BREATH" ONLY IN COLD WEATHER

As a matter of fact, we don't see our breath. What we do see is the water vapor which is charged and which has become condensed in contact with the cold air. All that happens is this: We breathe in use a certain amount of air and expel the rest, charged with the moisture picked up from the inside of our bodies. When the air is warm it can absorb or "hold" the moisture in our breath, but when the air is appreciably colder it condenses this moisture into little globules which we see as vapor or mist, exactly as steam from a kettle is condensed on the colder outside air.

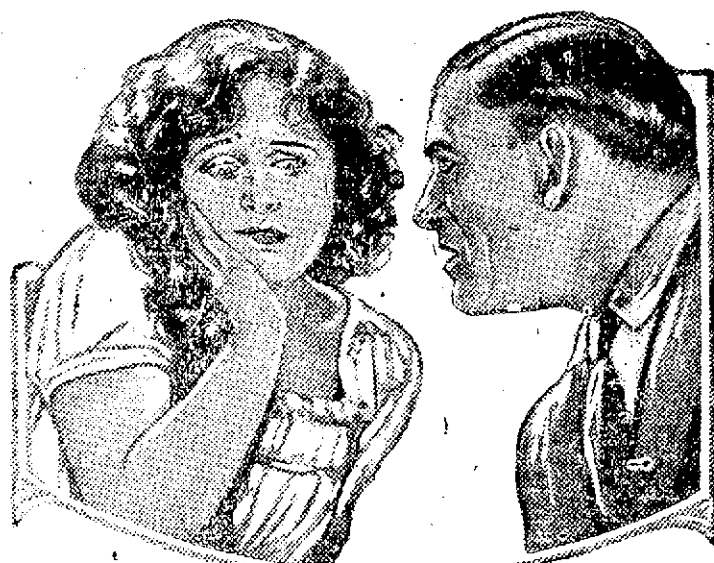

Holland's "Sleeper" on Piles. Rotterdam has the highest house in the country. It is known as the American "Sleeper" and is a very curious structure. It is built of porcelain tiles and stands upon piles. Amsterdam has the queen's palace, the foundation of which is 12,000 piles and there are so many other buildings there supported that way that the town really floats on free trunks.

The first person who used the word "graphite" was a 15th-century man. It is derived from the Greek word, Grapho (writing).

Heed the Warning If You Cough

Start Taking
Father John's Medicine at Once

Coughs are danger signals. Don't neglect them. They won't get well unless you treat them right. You must heal the lining of the breathing passages. For this purpose, Father John's Medicine has proven of special value. Its soothing, healing elements relieve the irritation of the breathing passages. Its strength-giving elements are so prepared that they are easily taken up by a weakened system which is thus enabled to get rid of the trouble. You can gain strength and health by taking Father John's Medicine to relieve your cough and build new flesh.

Hope Hampton and Lon Chaney in "The Light in the Dark" at the Rivoli this evening.

MOVIES

GRAND TODAY

Introducing Sessue Hayakawa in one of the greatest roles of his career, "Five Days to Live," now at the Strand theatre, strikes a note of poignant romance that promises to captivate film devotees throughout the country. Those who admire realism and superb dramatic and story of really tense, dramatic interest, will find Mr. Hayakawa's current vehicle one of the most gripping upon which he has ever bestowed his great talents.

Still another feature of vital interest is the all-oriental cast which supports the noted star. His own wife, known to film fans as Tsuru Aoki, plays opposite Mr. Hayakawa in the leading female role, and in addition there are a number of the greatest screen players who ever came out of the Far East.

"THE LIGHT IN THE DARK"

"The Light in the Dark," which comes to the Rivoli theatre today, is a modern drama and modern costumes are used. However, there is a period atmosphere of the quest of the Holy Grail, wherein wonderful color effects are used.

Miss Hampton plays the role of a poor little Vermont girl making her way alone in New York. Her life is a struggle, and she is taken into a home of wealth and is soon surrounded by a court of admirers. A terrible accident, however, strikes her, and she is left alone, but when the love of his life is taken from her, she is left alone, but when the love of his life is taken from her, she is left alone.

WONDERFUL TALES SELECTED FOR FILM

Some wonderful tales have been secured for the "Rivoli" special production. The tales, and those which will be shown at the Rivoli theatre today. Many of the tales are about a small town, where the straight-faced inhabitants have no place for a youth who goes wrong, or rather whom gossip has it has left the straight and narrow path. For the town's people it was necessary to secure many tales from the village gossip, the straight and narrow, who would cut off his offspring with a murmur, the kind-hearted mother, who would do anything for her child, and the village good folks, who usually did more harm than good—all had to be secured.

"THE BARRICADE"

Eases Bruises-Strains
It penetrates, restores normal circulation—breaks painful congestion.

Sloan's Liniment—kills pain
For rheumatism, bruises, strains, chest colds

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels. There's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years. Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action and always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities. Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

Dorothy Richards and William H. Strauss in a scene from "The Barricade" at the Casino today and tomorrow.

unhappy. Jane despised Robert's friends and family. Robert became prosperous. He sent many checks to Solomon to ride him through hard times. Solomon was too proud to cash them.

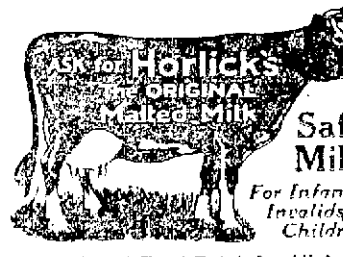

Matters between Jane and Robert came to a climax and he resolved to go back to the East Side where he said he belonged.

Jane was relieved at first, but she loved Robert, and came to understand that the barricade of pride, prejudice and misunderstanding must crumble under the power of love, so she followed Robert, with the ultimate destruction of all the barricades they had reared between each other.

Interpreters on Paris Motor Buses

English people who visit Paris will find that many difficulties in the way of language have been smoothed over. The latest innovation is the introduction of interpreters on the motor buses running on the routes most patronized by visitors. Classes in English have been started for the conductors, and those who speak

RUINS OF ROMAN BASILICA FOUND IN TUNIS GARDEN

Discovery Made by American Woman Residing on Edge of Sahara Desert

SFAX, Tunis.—In her olive garden bordering on the Sahara desert, Mrs. Helene Joannes, a former Wellesley student, has discovered the remains of an old Roman basilica. The find is of great interest to archaeologists and historians for its connection with the history of the Roman occupation of northern Africa.

Mrs. Joannes is the daughter of Eugene Regnault, for many years French ambassador to Japan and also high commissioner in Siberia during the period of Kolchak anti-bolshevik administration. Fascinated by the discovery of the tomb of King Tut-enkhamen, Mrs. Joannes started excavations in the wild Arab country near Mahres. She was rewarded by unearthing a stone basilica used by the Romans in the second century. It contained mosaics picturing peacocks and other birds, a drinking fountain, well preserved altar columns and Roman crosses.

Two Great Kauri Trees
In New Zealand have been found two kauri trees each containing twice as much valuable timber as the largest California tree.

HIGHWAY HEADS TO LET ARCADIA ROAD CONTRACT TUESDAY

TOMAH'S VETERANS OF THREE WARS IN MARCH 17TH FETE

Auxiliaries also Assist in Patriotic Celebration at the Legion Hall

TOMAH, Wis.—A patriotic celebration was held on Saturday March 17 by the veterans of three wars—The Civil war, Spanish-American war and the World war. The local chapters of G. A. R. and W. R. C. entertained the other veterans and their auxiliaries in Legion hall. Patriotic symbols were used on the tables and throughout the rooms. Covers were laid for eighty-five at dinner after which the following program was enjoyed. Address of welcome G. A. R. Post Commander John Burdham. Response T. E. C. Vesper Commander Spanish War Veterans. Vocal Duet—Mrs. Eva Caldwell, Miss Margaret Caldwell. Address, Rev. G. M. Willott. Informal talks Mrs. William Leuz, Mrs. Amelia Brill, Mrs. Corp Robertson. Reading, Mrs. Angie Reynolds. Welcome to the Drum Corps, Mrs. Angie Reynolds. Reading Mrs. Hackney. Mrs. Reynolds. Selection, Drum Corps.

The regular March meeting of the Women's Civic club was held in the community room on Thursday afternoon. Mrs. T. J. Sheehy, chairman of the music committee, presented the following program which was presented after the regular business session. Community singing, Mrs. Sheehy, leader. Reading, "Music in Ireland," Julia Strouse. Two part singing, eighth grade girls. (a) Musical Box, (b) Kathleen Aragon. Irish jig, Edith Boyer, Jeanette Soule, Marion Van Wie, Dorothy Gordon, Gertrude Plummer and Lucile Strande. Monologue, "A Pleasant Half Hour at the Beach," Ann Steinmetz. Dramatic reading, "Rosa Cheeks and Strong Heart," Mrs. L. J. Roberts and third grade pupils. Vocal solo—(a) The Last Rose of Summer, (b) Kathleen Mavourneen, Miss Vivian Tucker.

The Old Time Card club was entertained on Tuesday evening by Mrs. E. M. Hart at her home. Some two hundred were the evening's pastime and was played at seven tables. Honors for high scores went to Miss Elizabeth Felter and Dr. C. C. Anderson. Refreshments and a pleasant social hour followed the card game, the party breaking up at midnight. On Thursday evening Mr. and Mrs. William C. Felter entertained a circle of friends at a dinner party followed by a social evening. On Saturday afternoon the third of a series of "fetes" was given by the Civic club at the home of Mrs. E. M. Hart. The committee of the day, Mrs. Theodore Smith, chairman, put on an interesting program of Irish music, dances and living pictures. Following the program, tea was served by the committee.

Mrs. Arthur Henry and Mrs. Frank Sauer entertained the Bethel Sisters of Charity Temple at a meeting held on Tuesday evening. A program was followed by the serving of refreshments. The Neighborhood Birthday club was entertained on Tuesday evening by Mrs. William Hinds, the occasion being the birthday anniversary of the hostess. The running of the club were asked to dress as little folks, and prizes for the best costumes were awarded. Mesdames Tuttle, McLaughlin and Hedlin. A picnic supper was served at half past six and was followed by a pleasant social evening.

The Young Men's club met at the home of Mr. and Mrs. Henry Smith on Monday evening. Dinner was served by the hostess, six of the club members. A social hour was followed by a program of living pictures. Honors for high scores were won by Mrs. Frank Knick and Mr. E. C. Anderson.

Dr. and Mrs. E. W. Yackel entertained a circle of friends at dinner on Tuesday evening. A program was followed by the serving of refreshments by the hostess. Mrs. C. J. Maxwell entertained the Thursday Evening Bridge club at her home on March 23. Duplicate auction bridge was played at two tables and was followed by a supper party and social hour.

The Shakespeare club meets on Monday afternoon with Mrs. William C. Felter, Lessem, King Richard III. Review leader, Mrs. Felter. Mrs. Sarah A. Edgerton, formerly of Tomah, now a resident of Kendall, and Mr. William Goff of Milton were united in marriage on March 12 by Judge Francisco and will make their home at Clifton.

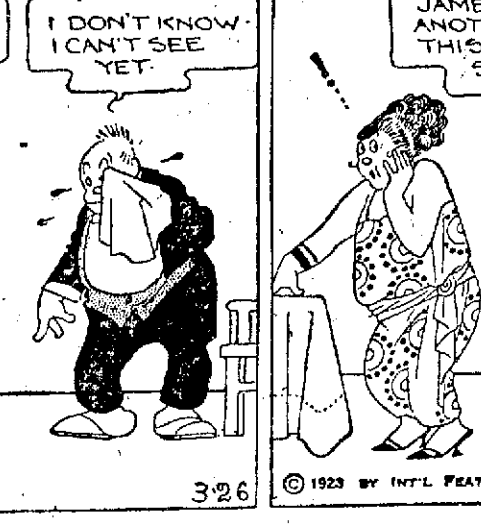

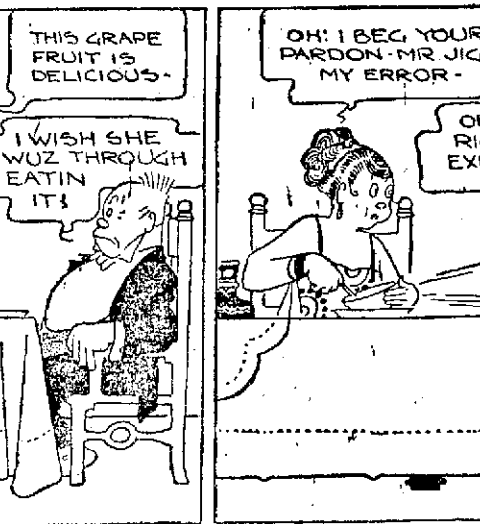

Ertha Smith was hostess on Saturday afternoon to the Birds of Promise club, the occasion being the birthday anniversary of the hostess. Music, games and a birthday supper were enjoyed.

CHILD IS KILLED IN A FALL INTO A STOCK TANK

WINONA — The three-year old daughter of Mr. and Mrs. Roy Miller, who live on a farm near Eyota, was dead today as the result of an accidental fall into a stock tank late Friday.

The child fell through the cover of the tank at about 3 p. m. When found, she was still alive. A doctor was called, but efforts to resuscitate her were in vain, and death followed.

Mr. and Mrs. Miller lived on a farm north of Dover until last fall. They have a daughter now, seven when they moved to the farm of William Mechnick, father of Mrs. Miller, two and a half miles north of west of Eyota. Besides her parents, the child is survived by two sisters, one older and the other younger.

Automobile Washer has a revolving brush driven by water power at from 200 to 400 revolutions a minute.
